

CHRISTIAN DALAGAN

SHOPIFY DEVELOPER & STORE MANAGER

zin-dev.vercel.app | chandev0908@gmail.com | github.com/chandev0908

Profile Summary

Shopify Developer and Store Manager with 3 years of hands-on experience building custom themes, optimizing store performance, and managing end-to-end ecommerce operations. Proficient in Liquid, HTML, CSS, JavaScript, and Shopify Online Store 2.0 architecture. Currently managing and developing a German B2C and B2B ecommerce brand with a 4,600+ product catalog. Experienced in CRO, Core Web Vitals optimization, Shopify Flow automation, B2B wholesale operations, and third-party app integrations. Uses Claude and Codex daily as development multipliers to ship clean, production-ready work faster.

Technical Skills

Shopify	Liquid, Online Store 2.0, Sections, Blocks, JSON Templates, Metafields, Shopify Flow, Shopify CLI
Front-End	HTML5, CSS3, JavaScript, TypeScript, ReactJS, Next.js, Tailwind CSS, Sass
Automation	n8n, Shopify Flow, Webhooks, Google Sheets Integration, Slack Integration
Tools & Apps	Matrixify, SparkLayer, Advanced Shipping Rules, Candyrack, Pumper, Klaviyo, Judge.me
Analytics	Google Analytics 4, Google Tag Manager, Core Web Vitals, PageSpeed Optimization
CMS	WordPress, WooCommerce, PHP, Elementor, Custom Plugin Development
Other	Git, GitHub, Figma-to-Shopify, Claude AI, Codex

Work Experience

Shopify Developer & Store Manager

German B2C/B2B Ecommerce Brand (Confidential) | Jan 2025 - Present

- Manage full Shopify store operations across a 4,600+ product catalog including theme development, app integrations, and daily store maintenance.
- Improved store PageSpeed from mobile 12 to 51 and desktop 19 to 71 while preserving the full marketing stack.
- Diagnosed and fixed a mixed-cart shipping overcharge bug using Advanced Shipping Rules, correcting Austria and Germany billing.
- Built custom B2B order confirmation email in Liquid with dynamic VAT detection, Reverse Charge logic, and B2C passthrough.
- Built Shopify Flow automations for trending collections, pre-order tagging, and catalog cleanup.
- Implemented Candyrack upsells, Pumper bundles, SparkLayer B2B wholesale, and a GA4-powered trending collection.

Freelance Web Developer

Self-Employed (Shopify & WordPress) | Jul 2023 - Sep 2025

- Built three complete custom Shopify themes from scratch: Chanfinds, The Dark Roast, and VOLT.
- Developed VOLT with custom mega menu, predictive search, product comparison, wishlist, and dark mode toggle.
- Developed and maintained WordPress and WooCommerce sites, including custom PHP plugin development and performance optimization.
- Worked with live client businesses across fashion, cosmetics, PMU supplies, microblading supplies, and consumer goods.
- Delivered OpenCart-to-Shopify migrations including product data transfer, theme setup, and app configuration.

Intern / Front-End Developer

iPhiTech IT and Digital Solutions | Jun 2023 - Aug 2023

- Developed front-end interfaces using HTML, CSS, and JavaScript as part of a professional development team.
- Collaborated on web projects and gained hands-on experience in a production development environment.

Shopify Portfolio

VOLT - Dawn-based electronics theme with mega menu, product comparison, wishlist, dark mode, and custom Liquid.

Chanfinds - Custom fashion/lifestyle theme with AJAX cart, custom animations, mobile-first layout, and zero jQuery.

The Dark Roast - Custom coffee brand theme with moody aesthetic, AJAX cart, debounced search, and lean codebase.

Education

Bachelor of Science in Computer Science

Tarlac State University | 2020 - 2024
